

2013 Deer Trustee Report
Public Action Team Implementation Proposal

1 of 1

Action Team: Science/Research	Predator Studies and Management C.5.
<input type="checkbox"/> Draft <input checked="" type="checkbox"/> Submitted	Deer Trustee Report Page 42

This document shows the original Deer Trustee Report recommendation that the Public Action Team considered when developing proposals for implementing the recommendation in Wisconsin. The Public Action Team's implementation proposal is presented then followed by additional background information.

I. ORIGINAL DEER TRUSTEE REPORT RECOMMENDATION

C.5. Geospatial studies of predator distribution and densities, especially for wolves, should be encouraged and developed to assess long-term trends and issues. The geographical documentation of annual harvests, observations, or other potential geospatial data on predators that might help describe the distribution or density of predators is encouraged to assess current and future trends.

II. PUBLIC ACTION TEAM PROPOSAL FOR IMPLEMENTING THE ABOVE RECOMMENDATION

Below is the Public Action Team implementation proposal along with their rationale and supporting evidence, potential implementation obstacles and consideration of the proposal's potential impact on the overall deer management in Wisconsin.

1. Action Team Implementation Proposal:

- Endorsed the recommendation and chose to include language for the recommendation with C. 1. (Continue to conduct research on the impacts of predators on the deer herd.)

2. Supporting data, references, rationale and other information to help others understand the proposed idea and perspective behind it.

- None listed by the Team

3. Consider and describe potential implementation obstacles or drawbacks to your proposal and possible remedies to address these during implementation.

- No comments submitted by the Team

4. Overall, consider and describe how the proposal might simplify or complicate deer hunting, management or scientific research in Wisconsin?

- No comments submitted by the Team
